Transcarent Surgery Care: A Great Benefit Gets Even Better

With Transcarent Surgery Care, associates and family members enrolled in the Blue Cross of Idaho EPO, PPO and HSA medical plans can save money while receiving top-quality care with low complication, infection and readmission rates for certain non-emergency surgeries.

New: Colonoscopies and endoscopies

The Transcarent program expands to include preventive and diagnostic colonoscopies and endoscopies (see box to the right for the current list of locations). This benefit includes:

- **Shorter wait times:** Transcarent members receive priority access at top-rated facilities to receive colonoscopies and endoscopies within 30 days. (Non-Transcarent procedures may take 3-6 months to schedule depending on the location.)
- **Concierge support:** Your Transcarent Care Coordinator is ready to schedule your appointment, answer questions, help with paperwork, coordinate billing and make your experience as easy as possible.
- **Lower Cost:** When you choose Transcarent for your colonoscopy or endoscopy, the cost of your preventive or diagnostic procedure is fully covered, and you pay \$0 if you are enrolled under the EPO or PPO plans. If you are enrolled in the HSA plan, you pay \$0 after meeting your deductible.

Protect Your Smile with Regular Preventive Dental Care

Maintaining good oral health requires regular preventive dental check-ups and cleanings. These routine visits lower your risk of developing tooth decay, gum disease, and more serious dental problems and help prevent the need for expensive dental procedures. While this sounds like common sense, prioritizing our oral health is not always easy.

Consider this: Preventive dental services include oral exams, teeth cleanings and routine x-rays. When you use a Delta Dental PPO network dentist, services are covered at 100% with no deductible and do not count toward your annual maximum benefit.
